ryam.ibrar@gmail.com

Professional Summary

Multidisciplinary designer spanning UX/product design, visual and motion graphics, and digital marketing. Experienced in Figma, design systems, wireframing, and prototyping alongside brand-aligned graphics, short-form video, and SEO-informed website improvements. Skilled at turning complex technical concepts into clear, accessible digital experiences across web, social, print, and presentations.

Skills

UX / Product Design:	User flows, sitemaps, wireframes, prototyping, high-fidelity UI, design systems, information architecture, responsive design, accessibility, usability
Visual & Motion Design:	Branding, typography, layout, iconography, infographics, marketing collateral, social graphics, short-form video, motion graphics
Digital Marketing & Web:	SEO analytics, website optimization, email campaigns, social media content, content strategy, audience engagement
Tools:	Figma, Adobe Creative Cloud (Illustrator, Photoshop, After Effects), Blender, Unreal Engine, Unity
Collaboration:	Stakeholder communication, cross-functional teamwork, design documentation, iterative feedback, handoff notes

Work Experience

Digital Marketing & Graphic Design Associate <i>Archaius Inc. — Defense Technology Startup</i>	Jul 2025 – Present
--	--------------------

- Improve website experience by refining information architecture, page hierarchy, user flow, and visual design so technical content is easier for target audiences to explore.
- Create sitemaps, wireframes, and prototypes in Figma, and design brand-aligned graphics, diagrams, one-pagers, and presentation materials in Adobe Creative Cloud.
- Support SEO and analytics efforts by reviewing page performance, audience behavior, and content clarity to strengthen engagement and discoverability.
- Translate complex defense technology concepts into clear, brand-aligned visuals for non-technical stakeholders, executives, and engineers.
- Maintain consistent visual standards and organized creative libraries across web, print, and presentation assets.

Design & Marketing Intern <i>Artist Ummah — Nonprofit Organization</i>	2024 – 2025
--	-------------

- Designed digital and print marketing materials (flyers, posters, social graphics, short videos, signage) for community programs and cultural events.
- Ran social media campaigns for the Ramadan & Eid Artisan Festival, creating audience-focused content that increased event visibility and promoted Muslim-owned small businesses.
- Coordinated vendor, exhibition, and event design needs to create a cohesive, accessible attendee experience.
- Partnered with artists, organizers, and stakeholders to align creative direction with brand guidelines and event goals.

Selected Projects

Website UX & Marketing Site Redesign	Archaius Inc. Figma
---	-----------------------

- Redesigned information architecture, page hierarchy, and user flows to improve navigation and audience understanding of technical content.
- Built sitemaps, wireframes, low-fidelity prototypes, and responsive layout concepts; documented UX decisions and interaction behavior for development handoff.

Marketing Collateral & Visual Communication System	Archaius Inc. Adobe CC, Figma
---	---------------------------------

- Designed brand-aligned one-pagers, product diagrams, presentation slides, and social/short-form video assets to communicate complex ideas to non-technical audiences.
- Developed reusable layouts and visual standards to improve consistency across marketing, sales, and internal materials.
